

**A Carson Street School
Newsletter, written by
the students, for the
students**

What a busy start we have had to 2021. It is lovely to have all of the students back, eager to learn, with big smiles on their faces.

This year we are not having Hobby Clubs because we are lucky enough to have our friends from WADSA coming out 4 times each term, to let the students have fun with a huge variety of switch adapted games and activities. See inside for more information.

Therefore, we do not have a newsletter Hobby Club and we will be relying on everyone to contribute to The Rainbow Reporter.

Everyone has the chance to be a journalist.

We hope you enjoy this edition and seeing what many of your friends have been up to this term.

Wishing you all a very happy Easter.

Holiday Fun With Imogen

You may remember that in the last edition of The Rainbow Reporter, our journalists came up with some great ideas that you could all do in the summer holidays. Imogen decided to give some of these a try. Here is what she thought.

Imogen said “New- Peppa Pig- new-new-sunny-something to eat or drink-delicious-full-ok-leave the table-hungry-ok-kitchen.”

Great work Imogen! Sounds like you had lots of fun!

Interview with...PCH Nurses

Reporter Minnie recently went into hospital for a procedure and whilst there, she took some questions from her Red Gum classmates, to interview the nurses. What a great journalist; nothing stops Minnie from getting a story!

*I'm sorry! It's your turn to go on holiday.
Where do you like to go on holiday? (Minnie)*
'Yay! Thank you. We love holidays! If we could fly anywhere we would choose the Greek islands, Switzerland and New Zealand.'

Do you have time for lunch/ (Teacher Sarah)

'Most of the time! We try and have lunch all together as a team :) '

*Do you do something?
(Ameliah)*

'We do lots of nursing jobs like giving medication, checking temperatures, feeding babies...looking after babies and children so they can get better and go home from hospital :) '

*Who uses bandaids?
(Ridhan)*

'Lots of children. We use them for small cuts and scratches to help them get better.'

*Can Mum and Dad visit the hospital?
(Nate)*

'Of course they can. They can be at the hospital all day with you and one of them can sleep over at the hospital with you also.'

The nurses ended by saying 'Minnie has been a super star patient!'

Great work Minnie!

Reading Corner

Pack up and read this book.
It is like a party and
something to celebrate. It
should get a prize. It is
merry. It would be a good
present.

Musa— aged 8

The Room 9 class read
'Koala's eat gum leaves' by
Laura and Philip Bunting.
Here's what they thought.

I want to show you
something. My little
sister has a koala in her
room at home.

Adrien— aged 8

This book is sweet. I want to
give the koala a cuddle.

Amalie— aged 9

The koala needs a drink. He got sick. He had diarrhoea and
got better and then had a runny nose and a temperature so
he had to go to hospital for a thermometer. The cover of this
book is green and black.

Wayne— aged 10

Sculptures By The Sea

Some of our friends were lucky enough to attend this year's Sculptures by the Sea. Our REACH class have written some amazing reviews of their trip.

Did you get to go this year? What was your favourite sculpture?

Sculptures By The Sea

Amazing writing and typing REACH class.

Friday 12th March 2021

Yesterday we went to Cottesloe beach and we took some photos down there. There was beautiful art work at the beach and we had a walk around after that we had morning tea. After having morning tea we looked the ocean after that we had lunch after that we came back to school than it was home time I was feeling proud.

My favourite art work was cockatoo with the three fingers with a kissy face.

Excellent
Aahan!

WADSA Fun

WADSA received a Telethon grant to do some in school programs this year and we are lucky enough that they have chosen Carson Street as a focus school.

They have been to visit us 3 times in Term 1, with 4 visits planned for each of the remaining terms.

What has been your favourite activity so far?

NERF activities

"I like this fun,
funny."

WADSA Fun

Remote control cars

Switch activated musical activities

"Noisy!"

Principal for the Day

This year, when the students complete their termly Student Surveys, they will be asked what they would do if they were Principal for the day. Mrs Hamling then gets a list, without the names on, and she picks her favourite idea. The winner gets to be Principal for the Day! Term 1's Principal is Zhiqing who wanted 'more play outside school and more music'. Zhiqing got to be Principal on the last day of term and the children all got extra play outside, with music playing.

Thanks Principal Zhiqing! What a great way to end the term.

Sorting out the files on the system, drawing the Easter raffle and organising a whole school outside play...being a Principal is hard work!

Faction Update

Our first faction event was part of CE Awareness Week. The idea came from Student Councillor Emily who wanted ball games, so we set up a target game for students to throw balls at, to score points.

There were lots of great throws and more importantly, lots of acts of kindness and friendship shown by many of the students. Good work on being 'Kind to Others' everyone!

The results have been counted and the winners on the day were the yellow team. Congratulations yellow!

Happy Easter everyone!
Rest up for more fun in Term 2!

**Remember you can submit articles about things you get up to at
home to sarah.oneill2@education.wa.edu.au**
